LORENZO REPETTO

Senior Backend Developer · Software Architecture

La Plata, Buenos Aires, Argentina • +54 9 2221-411872 • lorenzorepetto28@gmail.com • linkedin.com/in/lorenzorepetto • github.com/lorenzorepetto

PROFESSIONAL SUMMARY

Senior Backend Developer with over 6 years of experience focused on software architecture, microservices, and distributed systems. Specialized in backend engineering with solid full-stack versatility. Driven by solving complex challenges, building scalable systems, and writing maintainable code. In addition to hands-on software development, experienced in leading projects and coordinating cross-team initiatives. Constantly expanding knowledge through specialized literature, personal projects, and academic studies. Holds a degree as Analista Programador Universitario from UNLP, currently completing thesis for a Bachelor's degree in Information Systems.

AREAS OF EXPERTISE

Architecture & Development: Java (Spring Boot), Python (Data pipelines, Airflow, Pandas), TypeScript / JS (React, Next.js, Angular), Flutter, Microservices, Event-Driven, REST/GraphQL, communication protocols (HTTP, gRPC, WebSockets), Clean Architecture, SOLID, Design Patterns, SQL & NoSQL databases (relational, document-oriented, cache).

Cloud, Infrastructure & Observability: AWS (Fargate, Lambda, API Gateway, RDS, ElastiCache, S3), Firebase, Docker, Kubernetes, Terraform, GitHub Actions, GitLab CI/CD, Datadog, New Relic.

Technical Coordination & Methodologies: Technical initiative coordination, SCRUM / Kanban, GitFlow, Spec-Driven Development (SDD), product & engineering alignment.

PROFESSIONAL EXPERIENCE

Senior Java Developer & Coordinator · BetWarrior (Product) — 08/2024 – Present

- Technical coordination of a 5-engineer development cell, streamlining prioritization, architectural design, and continuous value delivery.
- Architected and delivered an in-house **multi-country (AR/BR) and multi-brand Onboarding & KYC engine** in Java 17+, decoupling business operations from third-party vendor lock-in.
- Engineered third-party resilience and distributed tracing using fault-tolerant integration patterns and caching with **AWS ElastiCache**.
- Executed zero-downtime mass migration of user databases and historical biometric records via secure async data pipelines.
- Championed adoption of **Spec-Driven Development (SDD)** assisted by AI tools, accelerating delivery cycles.

Software Engineer · Inviu (Digital Ops) — 11/2022 – 12/2023

- Designed and developed end-to-end automation solutions for trading desk operations in close collaboration with business stakeholders.
- Created and maintained data ingestion pipeline using **Apache Airflow (Python)**, consuming BYMA (SDIB) REST APIs for real-time market orders.
- Process optimization: reduced order processing interval **from 1 hour to 3 min** and script runtime **from 4 min to <1 min** via persistent TCP.

Ssr Backend Developer · Ualá (Product Engineering - Loans) — 07/2022 – 11/2022

- Built **Backend for Frontend (BFF)** layer orchestrating Java 11 AWS Lambda functions, API Gateway, DynamoDB, and AppSync (GraphQL) for Loans product launch in Mexico.
- Developed modular Infrastructure as Code using **Terraform and Terragrunt**, reducing environment provisioning to minutes.

Ssr Software Engineer (Backend) · Mercado Libre (FBI Dept - Billing) — 02/2021 – 07/2022

- Core Accounting backend engineer supporting traffic peaks up to **10k RPM** with end-to-end multi-country ownership.
- Migrated legacy billing system ("Ratably" Kotlin/MySQL) into event-driven microservice using **Java 11, Spring Boot, and Clean Architecture**, with progressive rollout, zero data loss, and **5/5 performance rating**.
- On-call technical point of contact for critical `fbi-receipts` billing service in Datadog and New Relic.

Fullstack Developer · Technisys (Banco Falabella Peru) — 08/2020 – 02/2021

- Lead frontend developer for corporate banking web app (B2B) in **Angular 9** with **Java/Spring Boot** APIs and Kubernetes.

Software Developer · Grupo Mercel (Swiss Medical) — 04/2020 – 08/2020

- Enterprise backend integrations using Java, Apache Camel, and JBoss Fuse; mobile interfaces in React Native.

EDUCATION & LANGUAGES

Analista Programador Univ. (Graduated) · **B.S. in Info Systems** (Thesis in progress) — UNLP

Spanish: Native · **English:** Professional Working Proficiency
